NB:

- SCH's do not provide contracted PACE beds and will all have localised admission agreements and varying cost structures. Although a bed may be available, the home may still refuse an admission if there are operational difficulties (i.e., covid, lack of information to assist in effective risk assessment and management planning.).
- There is no legal authority to instruct an SCH to accommodate a s38(6) PACE admission. This permission is delegated to the Registered Manager in accordance with regulations on children's home placements contained within the Care Standards Act 2000.
